**LOCAL MANCHESTER COMPANY AWARDED \$925,000 CONTRACT FOR
HOMELAND DEFENSE COMMUNICATIONS**

Manchester, CT (July 8, 2003) – Local wireless solutions provider, Marcus Communications signed a contract for \$925,000 to provide the Town of Windsor with a new unified wireless communications system.

Marcus's system design was chosen out of the three competing proposals to replace 15-year old systems currently utilized by Police, Fire, EMS, Public Works, Health, and Engineering Departments. The system will now offer instant interoperability between agencies and the 299 personnel. Also included with the new infrastructure is a state-of-the-art dispatching center and all new vehicle mounted and portable radios.

Marcus has recently launched its Homeland Defense Network™ family of solutions for Public Safety agencies which aim to enhance the functionality of radio systems and components to promote interoperability, a major Public Safety goal in the aftermath of September 11th. Marcus has leveraged its experience with high capacity systems and technologies to install 20 similar systems in various parts of the Country.

“Windsor’s radio system will be one of the most advanced solutions for Homeland Defense available in the marketplace,” says Marcus Communications Chief Executive Officer Stephen Marcus. “Marcus has been on projects throughout the U.S. but we are pleased that our local communities are taking advantage our services in their own back yard.”

The new System project is already underway with a target completion for the end of 2003. Windsor joins the local Marcus family of Public Safety clientele along with the

Town of Newington, where Marcus recently installed a similar Town-wide radio communications system with over 400 vehicle mounted and portable radio units.

With over 34 years experience in the industry, Marcus Communications is known throughout the area for its creative technology solutions. Marcus currently provides radio communications services to clients such as Foxwoods Resort & Casino, ESPN and hundreds of businesses and municipal agencies.
